

How to install Theme Octra

Step 1

- Once you download this Theme from Odoo Store, you will get one folder - "theme_octra". Inside that folder you will get another compressed file - octra.tar.gz.

Step 2

- By extracting "octra.tar.gz" file, you will get set of other modules inside it.

Step 3

- Copy those modules from folder "Octra" and paste them along with "theme_octra" module. Delete folder "Octra" inside module "theme_octra". Go inside theme_octra folder and open "__manifest__.py" file. Uncomment all the dependent modules and add comment to module "website".

Step 4

- Make sure you add path of theme_octra and other modules into your config file of Odoo. Better practice should be to add them all in one folder - For example : Octra - and add that folder's path in your config file of Odoo.

Step 5

- Go to your Odoo instance and start Odoo in Developer Mode. In order to do that, go to menu "Settings" and click on "Activate the developer mode" link.

Step 6

- Under the menu "Apps" click on Submenu "Update Apps List" and then find the module "theme_octra". Install it and you are done!

Step-1

Theme Octra - User Guide (Odoo V11)

Step-2

Now In order to create the Website Portfolio Go to to **Website -> Portfolio -> Website Portfolio -> Create**

The screenshot shows the Odoo Website Portfolio creation interface. The top navigation bar includes 'Discuss', 'Calendar', 'Contacts', 'CRM', 'Website' (highlighted), 'Inventory', 'Email Marketing', 'Events', 'Employees', 'Apps', and 'Settings'. The user is logged in as 'Administrator'. The left sidebar contains a menu with categories: 'Orders' (Orders, Unpaid Orders, Abandoned Carts, Customers), 'Catalog' (Products, Product Variants, Pricelists), 'Blog' (Blog Posts, Blogs, Blog Tags), 'Portfolio' (Website Portfolio, Website Portfolio Category), 'Reporting' (Sales), and 'Configuration' (Website Carousel Filter, Website Menu Configura..., Settings). The main content area is titled 'Website Portfolio / Minimal Design' and features a 'Save' button and a 'Discard' button. The form fields are as follows:

- Name:** Minimal Design
- Short Description:** Lorem Ipsum is simply dummy text of the printing.
- Category:** Designing x Projects x Web Development x
- Portfolio Image:** A placeholder image of a bottle.
- Sequence:** 1
- Url:** #
- Published in Website:** ☒
- Multiple Images:** A table with one row:

Name
multi Image 1

 Below the table is an 'Add an item' button.

The bottom of the page indicates 'Powered by Odoo'.

How to setup the carousel ?

In Order to use Product Carousel in your Website, you have to do following things,

- 1) Create a Product Filter
- 2) Select the Created Filter & set the Public Name
- 3) Customize your Website with the filter of your choice.

Step-1

In order to create the product filter Go to **Website -> Catalog -> Product** . At there, create the filter you would like and save it as the Favourites.

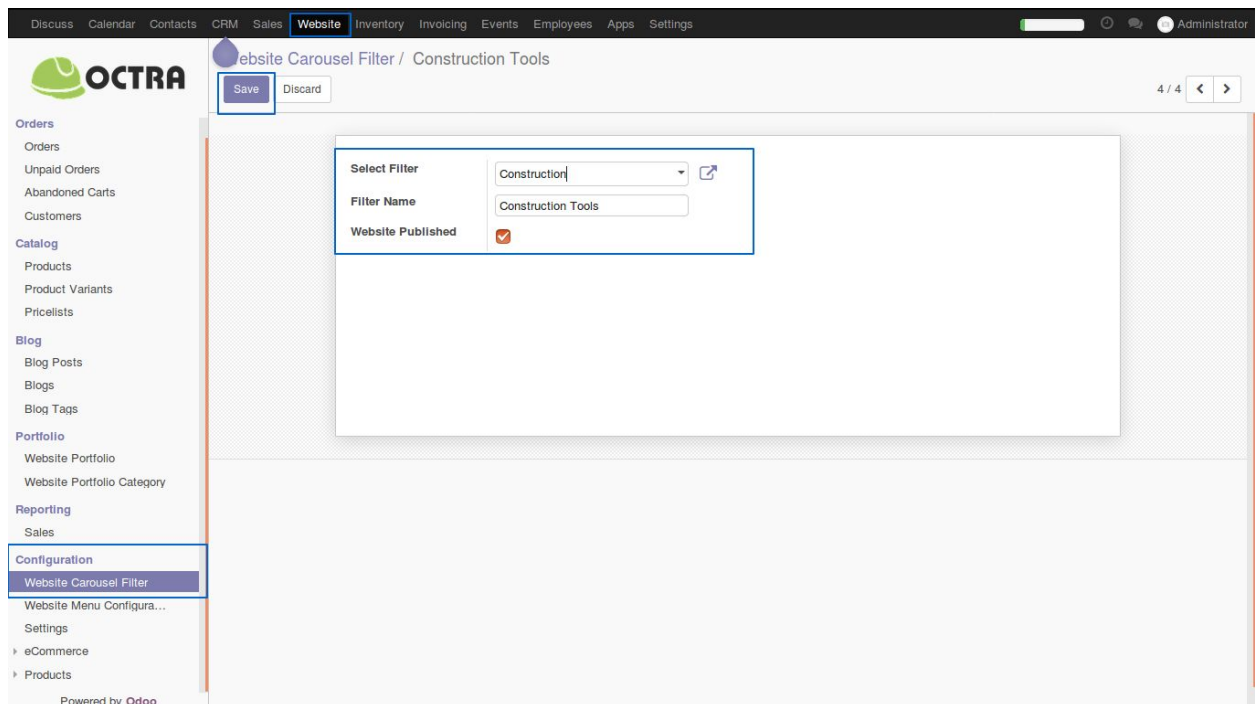

Note : Mark the checkbox “Share with all the user” to make the Filter visible for all the user.

Theme Octra - User Guide (Odoo V11)

Step-2

After saving the Filter Go to the **Website -> Configuration -> Website Carousel Filter** and here, you will find the list of filter created in the product menu.

From the list select the filter you would like to display in front end. In “Filtrer Name” give the name of the Filter which you would like to display. Set the “Website Published” field true to make the filter visible in front end.
